

SA937362

Omega pocket watch, 1935

Price

Sold**Item Reference: SA937362****Date of manufacture: 1930**

Description

Omega pocket watch, 1935. The watch has a gilt finish 15-jewel 40.6L.T2.15P stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 8104447 which dates it back to 1935. The movement is protected by an inner hinged cover. There is a scratch where a tool has probably slipped in the past. The watch measures 49mm diameter excluding the winding stem and the loop. The case is nickel and the inside of the case back has the early Omega logo. The front and sides of the case are in good condition, the hinged case back has some small indentations / fairly gentle unevenness. The acrylic lens is in good condition. The signed dial has blued steel hands, a subsidiary seconds dial and an outer minute track. There is a faint hairline between the centre and number 12. The watch comes in a new presentation box.
