## Description

A stunning and rarely seen Victorian table lamp of the highest order. This was made in England, it dates from around the 1880-1900 period. The quality is absolutely outstanding, with beautiful and intricate detailing all over the base. It is a great size, quite large for a table lamp and very sturdily made. This was possibly converted from a gas lamp to an electrical lamp in the early twentieth century. We have had this re-wired and tested, it is in good working order and excellent overall condition for its age. We have also paired it with the vintage shade seen which looks excellent, the shade is included if required. Width base – 10 inches , 26 cm Width shade – 17 inches , 43 cm Height to socket – 24 inches , 61 cm Height to shade – 33 inches , 84 cm

Internal Ref: 5217
