Description

A real survivor! It has been kept in the leather pouch its whole life, the watch is in remarkable condition showing very little signs of wear. Made by Omega and dating to around 1934 (by the serial number stamped to the movement) The watch movement has just undergone a complete strip down service and regulation. The glass over the dial is the original and has a few small scratches but we feel it would be a shame to replace this as the 'profile' of this glass is perfect for the watch. Exact Watch Measurements 48mm x 48mm x 11mm. Case is Nickel Plate.

Internal Ref: Omega PW
