Description

Gents 1950s Roamer wrist watch, super condition. The watch has a Swiss 17-jewel hand-winding movement, signed Roamer, which is working nicely. The watch measures 29mm wide excluding the winding crown and 29mm high excluding the lugs. The case is gold plated while the case back is stainless steel. The case is in superb condition, almost as though it has been sat in a drawer and barely used. The lens is in lovely condition too. The signed dial is in lovely original condition with original hands and a centre seconds hand. A new leather strap has been fitted although the original Roamer buckle has been transferred onto it. The watch comes in a new presentation box.
