Description

An excellent quality Sheffield silver plate chamber candlestick. This has decoration around the edge and has its original sconce and candle snuffer. These were used for walking round at night and were much more stable than normal candlesticks. This shows a little of the expected copper bleed around the edges and a few signs of general use but it is generally in excellent condition. Sizes: 6 1/2 "(16 1/2 cms) wide, 6"(15cms) deep, 4"(10cms) high. Date circa 1840. Date circa 1840.
