Pair of French brass inlaid column lamps

Price

Sold

Item Reference: SA940721

Date of manufacture: 1900

Dimensions

Height = 58 cm (22.8")

Width = 20.5 cm (8.1")

Description

Very decorative pair of French mahogany and brass inlaid column lamps on round mahogany bases, circa 1900 and fully rewired. The price shown is for one pair of lamps, but I do (at the time of listing) have two pairs available, so do let me know if you would like to buy both pairs and I can offer a price for the set. They are of a grand scale but very elegant being tapered columns, the rich mahogany contrasting with the brass inlay beautifully. I have shown them with some example shades, but I would say they could take slightly wider and taller drum shades ideally. Priced as one pair, excluding the shades but does include free mainland delivery within the UK. Measuring: 33 inches or 84 cm to the top of the example shades Example shades are 27 cm high X 40 cm wide 22 3/4 inches or 58 cm height to the bulb holder 1 3/4 inches or 4.5 cm base of column diameter 8 inches or 20.5 cm based diameter
