Description

Antique silver Omega pocket watch. The watch has nicely jewelled stem-winding movement which is working nicely. The movement is signed Omega. The movement is protected by an inner hinged cover. The watch measures 49.3mm diameter excluding the winding stem and the loop. The case is 800 silver with traces of a rose gold wash around the bezel and the edge of the case back. There are Continental hallmarks inside both of the case backs and the outer case back is also signed Omega. Overall, the case is in good condition, just a couple of small knocks to the side and some light surface marking. The acrylic lens is in nice condition. The signed dial has a couple of faint hairline cracks between 11 & 1 o'clock to the outer edge and a light surface scratch above the sub seconds dial. The watch has blued steel hands. The watch comes in a new presentation box.
