Description

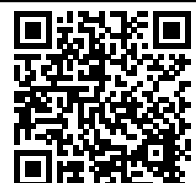

Very unusual carriage clock circa 1900. As can be seen from the images this clock has a most unusual design and an extremely high quality finish to the handles and pillars. The eight day movement strikes the full hours and half hours on a blued steel gong which gives a lovely mellow chime. The clock has recently been through a clockmaker's workshop and is in perfect working order. This is a carriage clock with a difference and would make a fine addition to a collection, or simply as a decorative piece to enhance the decor of a fine home.
