Description

A very good quality German solid silver candelabra. It is hallmarked with the German crescent moon and crown mark, the 835 standard mark and the makers mark of Wilhelm Binder who operated in Schwabisch Gmund from 1869. I would date this piece to c1950-1960. It has been beautifully designed and is in superb condition being free from dings splits distortions and repairs. It measures approx. 4.75 inches (12cm) tall by 6.75 inches (17cm) across the sconces by 3.5 inches (8.6cm) across the base and weighs 260 grams (the base will be weighted with plaster). A very well made nice clean example.
