Description

A rare Anglo Indian antique solid silver jigger (double ended bar measure). It is hallmarked and tests as high grade silver. I would date it to c1900 most likely made in the Kutch region. It has two sized cups one for single shots the other for doubles. It is in superb condition being free from dings splits holes and repairs, faint mark to the cartouche. It measures approx. 4.25 inches (10.6cms) tall by 1.75 inches (4.4cms) across the widest cup and weighs 76 grams. A very good quality well made rare piece.
