Description

This Edwardian (1901 - 1910) mahogany open bookcase is small enough to reside in the tiniest cottage, but also large enough to house many of your favourite novels on its adjustable shelves. Now, after a visit to our restoration workshops, its surface has been enhanced, revealing the original rich tones of mahogany that lay hidden for so long. I am sure the artisan who originally made this bookcase would be surprised to learn that their choice of combining a simple design and good-quality timber would still be in fashion during the Charlean age, 120 years later.
