Width = 2.4 cm (0.9")

Description

For your consideration is this beautifully restored gents wrist watch by the American watch company Elgin. On first viewing one can't not be impressed by the dial, for a 90 year old watch it's excellent, yet totally original and untouched aside a light clean. The dial has raised nickel plated markers against a two tone grey background. The stepped casing is 14k gold filled, the back is free from engravings. Recently serviced last month, also fitted with a new soft leather strap. Perfect watch for any gent as daytime wear and evening. It is fitted with a good-quality 15-jewel Elgin . The movement has the serial number which gives it a manufacture date of 1934. Width: 25mm, excluding crown. Length: 44mm total length to tips of the lugs. Thickness: 9mm, including crystal. Viewable dial/crystal: 18mm x 22mm. Strap: 16mm wide, tapering slightly to 14mm at the buckle. Wrist fitting: The watch should fit a wrist size of between 160mm and 190mm. All of our watches are sent out in complimentary presentation boxes, ideal for gifting and to store for personal collections. FREE UK MAINLAND DELIVERY
