

SA943728**1930s Cyma pocket watch.**

Price

Sold**Item Reference: SA943728****Date of manufacture: 1930**

Description

1930s Cyma pocket watch. The watch has a nicely jewelled stem winding movement which is working nicely. The movement has been identified as a Cyma calibre 999. The watch measures 50.2mm diameter excluding the winding stem and the loop. The case is 10ct gold filled and is the Moon model made by the Dennison Watch Case Company. Dennisons was a Birmingham based watch factory and they supplied various watch makers with cases. The case has general light surface marks and some light rubbing to the outer edge of the back but overall it is in nice condition for a 1930s watch. The acrylic lens is in nice condition. The dial has a very faint hairline crack at 4 o'clock but otherwise it is nice condition with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
