

SA944091

18th century polished steel bed drape watch hook

Price

Sold**Item Reference: SA944091****Date of manufacture: 18th Century**

Description

A late 18th century polished steel hook for attaching to bed drapes to hang a pocket watch on at night. These can sometimes be referred to as tapestry hooks. They are rare survivors due to their size, and I can't believe that this is the second one we have found in a year! The hook is very sharp. See page 225 plate 742 How the Watch was worn Genevieve Cummins.
