The front of the case is in good condition while the case back has some unevenness. The lens is in good condition. The signed dial has some marking but you have to look closely to see it. There are two subsidiary dials, one for constant seconds and the other records up to 30 minutes. The chronograph feature is operated via the top button to start and the lower button to stop and then again to re-set to zero. The chronograph feature should not be left running constantly. The hands are the originals although they have been over painted at some stage. A new leather strap has been fitted. The watch comes in a new presentation box.
