Description

A very stylish solid silver cigarette case. It is hallmarked with the Austrian 900 standard Hoopoe bird mark, this mark was used from 1922. I would date it by its design to c1930s. It has been superbly designed and has been internal gilding. It springs open automatically when the button is pressed and works like new. It is in superb condition being free from dings splits and repairs. It measures approx. 3.75 inches (9.5cm) long by 3 inches (7.6cm) wide weighs 128 grams. A superbly made very high-quality piece.

Internal Ref: 27592
