Description

Antique silver pocket watch for the Italian market. The watch has a 16-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has details of the movement together with details of the original Italian jeweller, Icardi Pietro of Genova (Genoa). The watch measures 53mm diameter excluding the winding crown and loop. The case is 800 silver and there are Continental hallmarks inside both of the case backs. The outside of the case is in good condition, just a little unevenness to the case back. Inside the case back, there is a soldered repair. The acrylic lens is in good condition. The dial is signed with the name of the original jeweller retailer. Original pin-set hands with handsome detailing, a subsidiary seconds dial and outer minute markers. There are some hairline cracks but fairly faint. The watch comes in a new presentation box.
