Description

Antique Waltham full hunter pocket watch, 1922. The watch has seven jewel stem-winding movement, grade 610, which is working nicely. The movement has nicely patterned plates, fully signed and with the serial number 24,186,715 which dates it back to 1922. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and loop. The case is the gold plated Star model from the Dennison Watch Company, an English case maker and supplier to Waltham UK. The case has a few surface marks and a hint of unevenness but not too serious at all. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition. The signed dial is in good condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
