Description

Gents Omega wrist watch, c1937. UK POSTAGE ONLY FOR THIS ITEM. The watch has a 15-jewel hand-winding movement, calibre 26.5 SOB T2, which is working nicely. The movement is fully signed and it has the serial number 8,510,809 which dates it back to around 1937. The watch measures 30mm diameter excluding the winding crown and the lugs. The case is gold filled as was made for Omega by the English watch case maker Dennison. The case is in lovely condition for such an early piece with a small minor bruise to the side and general light surface marking, nothing serious at all. The lens is in good condition. The dial is signed with the Omega name, and it also has the name of the original retailer, S Smith although the name and location is quite worn. There are some short hairlines on number 5 but difficult to see with the naked eye. A later leather strap has been fitted. The watch comes in a later Omega presentation box.
