Description

This is an unusual silver-plated spoon warmer. It carries the maker's mark for Henry Wilkinson & Co, Sheffield, and dates from the mid-Victorian era. The slightly bulbous body stands well on four feet and the carrying handle is well-attached. The base has a simple screw opening to allow the hot water to be stored. The plating is in excellent condition. There are a couple of small dings on the body, but nothing unexpected for an item of this age. Dimensions: Length: 13cm Width: 8cm Height: 12cm. Post and packaging are free within the UK. Overseas buyers please e-mail for postage costs and please note: Import duties, taxes, and charges are not included in the item price or shipping cost. These charges are the buyer's responsibility. Please check with your country's customs office to determine what these additional costs will be prior to buying.
