Description

Simply gorgeous colour palette of rosy coral or pinky terracotta field with a quirky 'Tree of Life' design in many shades of light blue, within a light blue border. These niavely drawn North West Persian carpets are the epitome of charm and gentle warmth for your living or drawing room. Even a bedroom would work with this subtle colour. One of the nicest of this type I have seen and a pleasure to look after while I wait for its next home. Showing light to medium wear and having some repairs done so it will be ready by mid January 2023. 12'6" x 13'7" Price includes VAT at 20%
