Description

Antique Omega pocket watch with chain, c1910. The watch has a stem-winding movement which is working nicely. The movement is signed with the Omega logo and it is all protected by an inner hinged cover. The watch measures 47mm diameter excluding the winding stem and the loop. The case is nickel and it is in lovely condition. The inner case back has the early Omega logo. The glass lens is in good condition, just a few minor marks, nothing very noticeable at all. The dial is signed with initials, probably the initials of the first owner of the watch. The dial is in lovely condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a single chain, 33cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
