Price

Sold**Item Reference: SA948158****Date of manufacture: 19th Century**

Dimensions

Height = 12.6 cm (5.0")

Width = 7 cm (2.8")

Depth = 3.5 cm (1.4")

Description

Small todody lifter with slice cut flutes and facet cut rim neck ring English c1830. Condition: Very good condition. Rim: 7 cm. Base: 3.5 cm. Note: A todody lifter is a hollow vessel used when transferring punch from a bowl to a glass. The bulbous end was dipped into the punch-bowl until the object filled, when a thumb closed the opposite end until the punch was released into the glass. This example is particularly small and neat.

Internal Ref: 11510
