Description

Royal House Antiques is delighted to offer for sale this very rare and important 18th century hand carved Italian circa 1740 Tete a Tete conversation settee. Please note the delivery fee listed is just a guide, it covers within the M25 only for the UK and local Europe only for international, if you would like an accurate quote please send me your postcode and I'll provide you with the exact price. What a find, I have never seen another and to be honest, I'm not sure one exists. It is circa 1740 as mentioned and finished with the original gilding, hand carved to the back rest with Lion's heads and mains, the feet are lions hair paw, this piece visually is to die for. It is by modern standards very low to the ground so more of a bench or stool size, we can add Victorian porcelain castors for the cost price should the new owner wish to raise the height, it would add around 5cm. The upholstery looks to be late 19th century and in good period order. Condition wise we have removed the base cover and checked inside, some of the webbing has been restored and a new hessian base cover fitted. The gilding is nicely aged and original.
