Description

A very unusual and incredibly well made antique nesting coffee table. This was made in England, it dates from around the 1910-20's. This has a very useful design, and the quality is amazing. The serpentine shaped edges have crisp and intricate carving, all the tables sit on finely made barley twist legs. The tops are beautiful figured walnut, inlaid with brass. The brass inlay on the top table is particularly beautiful. We have recently had these re-polished to a very high standard, the condition is excellent for their age.
