

SA949614

Silver Longines half hunter pocket watch, 1908

Price

Sold**Item Reference: SA949614****Date of manufacture: 1900**

Description

Silver Longines half hunter pocket watch, 1908. The watch has a stem-winding movement, Longines calibre 18.68, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the three covers for London (import mark), 1908 with an importer's mark for Arthur Baume, Baume & Co were the importers of Longines watches to the UK and the British Empire. Overall, the case is in good condition, just three little "dings" to the bottom edge. The front cover has a central lens surrounded by enamel filled Roman numerals. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in lovely condition (there is some reflection showing in the photos). The dial is in lovely condition. Lever-set hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
