

SA949927

Gents 1950s automatic wrist watch, super condition

Price

Sold

Item Reference: SA949927

Date of manufacture: 1950

Description

Gents 1950s automatic wrist watch, super condition. The watch has a 25-jewel Felsa automatic movement which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The main body of the case is gold plated while the screw-on case back is stainless steel. The case is in super condition, as though the watch has barely been worn. The back of the watch states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. There is a long service inscription to the back of the watch. The lens is in lovely condition. The dial is signed with the name of the original retailer, John D Eaton of Derby. It is in its original finish with original hands, centre seconds sweep and stylish numbers. A new leather strap has been fitted. The watch comes in a new presentation box.
