Description

A lovely Art Deco style chrome coal bin dating from the early 20th Century. It is an attractive round shape with side carrying handles and three shaped feet. There is a wreath shaped motif on the front and the lid has a round finial on the top. It also has its original metal liner. It is in good condition for its age although there are some signs of use. There are some small dinks and dents and minor surface marks, the chrome has tarnished in places and there are some small losses to the metal around the handles. There is a minor split down one seam (see photo) and the metal liner has suffered from some corrosion and rust around the base. Overall though it displays well and it has been cleaned and gently polished and is ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK delivery £15.
