Description

19th Century Folk Art Encased Ship Diorama – A delightful and highly decorated example of a late 19th century English folk art ships model diorama. Encased in a well-crafted glass and wood removable display case. Size in inches: H 21" x W 12" x D 31" Origin: English Material: Glass and Wood Completely solid in structure and form, A naturally aged object, naturally worn across all its surfaces. The ship is also aged and has light loss of detail of material and paint. One of the hand carved pillars inside the case is missing but this does not affect the decorative nature of this example. An antique object that has stood the test of time, in overall presentable condition. Please take this into consideration when purchasing this. Its exceedingly difficult to photograph all the areas in this piece, therefore we strongly suggest reviewing all the photos provided as part of this advert and propose questions where sections are unclear to avoid disappointment.
