Date of manufacture: Victorian

Dimensions

Height = 19 cm (7.5")

Width = 10 cm (3.9")

Depth = 6.5 cm (2.6")

Description

A lovely antique brass money bank dating from the mid to late 19th Century. It is made of cast metal with raised brass details. It is shaped like a building with a pointed roof and the words 'BANK' above the door. It also has an inset clock face above the slot for the money. There is a slot on the back where you'd have been able to collect the money which presumably would have had a cover at some point. It is in good condition for its age and displays well. There are signs of age and use, a few small dinks and dents here and there and some surface marks and knocks but no major damages. I have not over polished the brass to retain its natural aged patina but it could easily be polished further if desired. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK delivery £6, rest of the world £25.
