Description

Waltham Royal full hunter pocket watch, 1897. The watch has a 15-jewel stem-winding movement, Royal grade, which is working nicely. This is a good quality movement with screw-set jewels, a Church 1892 patent regulator and nicely patterned plates. The movement is fully signed and it has the serial number 8,373,145 which dates it back to 1897. The movement is protected by an inner hinged cover which has a couple of scratches. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and it is in lovely condition. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in super condition. The signed dial is in good condition, just a very small amount of marking but nothing serious. Blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
