Description

A very attractive Art Deco Czech crystal decanter with six glasses made by the glass maker Karl Palda. The Czech glassworks is most famous for its pieces made in the period of 1930's when striking and inventive geometric designs became a departure from the classic two toned crystal goblets and decanters with floral carved designs. This decanter boasts a very striking black and white geometric design which screams Art Deco. There are some light signs of wear commensurate with age, no damage. Tray shown not included but can be purchased, see other listings under barware. Free UK mainland delivery
