

SA954581

Antique Longines pocket watch, 1919

Price

Sold**Item Reference: SA954581****Date of manufacture: 1910**

Description

Antique Longines pocket watch, 1919. The watch has a stem-winding movement, calibre 19.74N, which is working nicely. The movement is fully signed and the serial number 3,780,753, dates it back to 1919. The watch measures 50mm diameter excluding the winding stem and the loop. The case is marked as being Silveroid. The case is, an alloy often used in watch cases around this time and it came under various names such as Silveroid, Silverore and Silverine. The case is nicely decorated and is in good condition, just slight indentations to the screw-on case back and light surface marks. The glass lens is in lovely condition. The signed dial has a few faint hairline cracks, a chip just beneath the centre and an old 'home repair' to the edge between 7 and 8. The minute hand is very slightly misshapen. The watch comes in a new presentation box.
