Silver Revue pocket watch, 1931

Price

Sold**Item Reference: SA954741****Date of manufacture: 1930**

Description

Silver Revue pocket watch, 1931. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement has been identified as by Revue. It is all protected by an inner hinged cover which has some slight unevenness. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1931 with a case maker's mark for the Birmingham manufacturer Dennison. Dennisons supplied cases for various watch makers. The case has a small indentation to the bezel, and some fairly gentle unevenness and small "dings" to the back. The acrylic lens is in lovely condition. The dial has blued steel hands, a subsidiary seconds dial and outer minute markers. There is a hairline crack running between 8 and 1 although it is faint and difficult to see with the naked eye. The watch comes in a new presentation box.
