Description

Circa 1910-1940 a well made adjustable wall mounted brass ship's lamp. It weighs 1.6kgs and is approximately 27cm in depth as shown in the main photo, but the angle of the light can be adjusted if required using the knuckle joint. The backplate has the original felt covering, is 16.5cm in diameter and has a purpose made hook. The light has been rewired to UK specifications and fitted with a 3am plug in case it is used as a table lamp. We have some original glass shades on our website lancasterantiques.co.uk that may suit this item, please email us to check what is available. Postage and packing for the UK mainland only is included in the price and for outside areas or abroad please contact us for a delivery quote.
