Depth = 53 cm (20.9")

Description

A rare set of 6 heavily carved Jacobean chairs. We bring to you this set of antique Charles II inspired Jacobean carved oak dining chairs in a beautiful original condition made around the 1920's. Inspired with chairs from the 1600's these chairs are fantastically made featuring spectacular fretwork and deep carvings which depict angels and foliage throughout. The chairs feature turned and carved back up-stands either side which frames the ornate back with its oval split cane centre. The chair stands on a turned base with turned stretchers incorporating a highly carved front rail between the turned and carved forelegs. The chairs are complete with drop in seat-pads which are covered in a new chenille material. Underneath the seat-pads the chairs are originally split cane, however, 3 of which would need the cane-work replacing if the chairs are to be used without the seat-pads. We have made the 6 drop in seat-pads because the chairs would need re caning to use otherwise. The chairs are perfectly usable long term and comfortable with the seat-pads. They are easily removable and preserve the chairs cane incase the next owner decides to have the split cane replaced. Als...
