Description

Antique Waltham pocket watch, 1926. The watch has a seven jewel stem-winding movement, grade 610, which is working nicely. The movement is fully signed, has handsomely patterned plates and a Breguet hairspring for enhanced precision. The serial number, 25,407,903, dates it back to 1926. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and is in good condition, just minor surface marking. The glass lens is in good condition with just a tiny nibble to the outer edge at 4 o'clock. The dial is in good condition with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
