Description

Silver Cyma pocket watch, 1935, super condition. The watch has a stem-winding movement, Cyma 999, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case backs for Birmingham 1935, together with the special commemorating the Silver Jubilee of George V. The case is in superb condition with the engine turned detail still nice and crisp. The watch glass is in lovely condition. The dial is in very nice condition with original blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
