Description

The watch has a 17-jewel hand-winding movement, calibre 26.9-21, which is working nicely. The movement is fully signed and it has the serial number 4,394,498 which dates it back to 1959. The watch measures 34mm diameter excluding the winding crown and the lugs. The main body of the case is gold plated while the case back is stainless steel. The front of the case is in lovely condition. There is a little wear to the plate on the back of the watch, behind the winding crown, and short scratches to the case back. The lens is in lovely condition. The signed dial has light marking and discolouration but overall a handsome appearance with original hands, centre seconds hand and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
