19th Century Brass Field Microscope & Lenses

Price

Sold**Item Reference: SA957554****Date of manufacture: 1900**

Description

A charming late 19th century brass field microscope in its original box, together with five additional brass lenses. The microscope has a lovely age-worn patina, as does its carrying case. The lenses have been well cared for, highly polished and attractive pieces in their own right. A lovely display set. DIMENSIONS Microscope:- Height: 15cm Diameter of base: 4.5cm Box:- Height: 5.5cm Width: 16.5cm Depth: 7cm DELIVERY UK Mainland: FREE International Delivery: Please contact us for a shipping quote.
