Depth = 36 cm (14.2")

Description

A good example of a large antique riveted copper bucket. It is the perfect size for a coal or log bin. It is excellent quality with a riveted seam, riveted base and cast iron swing handle. It is in good original condition and displays beautifully. There are no damages, splits or holes. There are some minor dinks and dents and signs of age and use but nothing detrimental. There have been some old soldered repairs to the underside of the rim which can be seen when the bucket is turned upside down (see photos). It has been lightly cleaned and polished and is ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK delivery £20.
