Description

19th century hand carved gold gilt cherub/putti fragment A high-quality hand carved 19th century gold gilt paint over sectioned pine example. This wonderful piece details realistic human features, which suggests it was carved for a special interior section of sorts. Likely to have been part of a larger collective at some point. It would look delightful and highly decorative positioned over a doorway entrance. Size in inches: H 10" x W 15" x D 5" Origin: France Material: Pine Date: 1850 - 1880 Completely solid in structure and form without any breaks. Detail loss across the painted surface as shown. We sell antique objects that have stood the test of time, in overall presentable condition, please take this into consideration when purchasing. Its exceedingly difficult to photograph all the areas, therefore we strongly suggest reviewing all the photos provided as part of this advert and proposing questions where sections are unclear or not seen to avoid disappointment.

Internal Ref: 19th century cherub
