Description

A substantial but small and beautiful six board oak coffer with original split pin iron hinges and original timbers with forged nailed fixings, thumbnail borders and splayed V board feet. . With a fabulous colour and superb natural patination that only 400 years of use, wax and care can produce. The chest was made as a purely functional piece of furniture to store precious items and it was probably made for a child. . Heavy and robust. Retaining original wire hinges, the iron lock plate is original also and much remains of the riveted hasp. . Made by hand in c. 1630 , a lovely solid and early example of great charm and particularly good colour and patina and of very rare small size. . Dimensions are: . 21 inches wide, 13 inches deep and 13 inches high. . For metric please multiply by 2.5
