Description

Antique Swiss pocket watch and chain. The watch has a 17-jewel Swiss stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in good condition with just light surface marking, nothing too serious at all. The watch glass has a few small marks but barely noticeable to the naked eye. The dial has blued steel hands, a subsidiary seconds dial and outer minute markers. There is a little discolouration to the sub seconds dial. The watch comes with a single chain, 24cm long. The watch and chain come in a new presentation box.
