Description

Antique Swiss lever pocket watch, nicely decorated movement. The watch has an unusual and beautifully patterned 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and the hinged case back has nice crisp engine turned detail and a cartouche to the centre. The glass lens is in lovely condition. The dial is in lovely condition with original blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
