Item Reference: SA959717

Date of manufacture: 1930

Dimensions

Height = 160 cm (63.0")

Width = 52 cm (20.5")

Description

A fantastic early 20th Century anatomical poster by Ruddiman Johnston & Co Ltd London. The poster is excellent quality and the paper is linen backed. It is attached to two wooden poles which enables it to be hung and rolled up. The poster depicts a detailed anatomical drawing of the human body and it's organs, muscles and blood vessels. It is in good original condition but is showing some signs of age. There are creases and some minor staining and there are some small losses and one small hole near the top of the poster (see photos) however it still displays well. It has been lightly cleaned and is ready to hang. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK delivery £15.
