## Description

Victorian Fireside Fuel Store Cabinet - 1890 Charming late Victorian flap-door coal/wood store cabinet in mahogany with castors. This example benefits from a mirrored back panel and an attractive carving to the door. The cabinet has a main compartment with flap down door - inside there resides a lift out scuttle/caddy. To the upper there is a useful drawer which is ideal for storing those fireside essentials such as matches and firelighters. The cabinet retains original brass fittings which are very attractive and nicely cast in bronze. Overall a super piece of furniture which looks attractive and functions nicely. The piece is clean and well presented. A very versatile size and adaptable to suit other non-fireside storage requirements. Please do not hesitate to contact us if you require further information - we are here to help Please see the images for the dimensions of this item We offer a 100% satisfaction guarantee We ship Worldwide
