Dimensions

Height = 220 cm (86.6")

Width = 49 cm (19.3")

Depth = 23 cm (9.1")

Description

A smart 18th Cent longcase clock by Joseph Leake of London. The case is in nicely figured mahogany and of typical "London" design with a long moulded trunk door and paneled base. The good quality 8 day 5 pillar movement has a brass dial with silvered chapter ring and gilt spandrels. It has a subsidiary seconds dial and an unusual date dial to the arch. The case is in good condition but has the expected signs of age and use and has had the odd historic repair. There is a veneer chip to the base. It has working locks and keys to both the trunk and hood doors. The movement is a bit dusty but in good working order and keeping good time. Free local delivery and setup (60mils), national and international delivery arranged at cost.
