## Description

In very clean condition having been cleaned and refinished in our workshops this neat Mahogany Pedestal desk is ready for a new home. It is 4ft wide and a decent 26 ins deep. A little more surface area than some at this width. The handles appear original and are all in place and the tooled black leather is pretty much perfect. No cuts, rips or scuffing on this little chap. The Mahogany is in great condition and has good colour with very minor signs of use over the last 100 years. It dates from about 1920 so has been looked after it would appear, The only issue was light fade so with having a visit to the workshops, as stated, that is now rectified. This is a box top desk so is easy to transport as it comes to three pieces. Very sensible price in this very tidy condition too. We have a number of writing tables and desks in stock, it is worth checking our own web site for more information.
