Description

A large round glass dome from the 19th Century, that now sits upon a sympathetic base, turned from a piece of antique mahogany and ebonised in the traditional manner to match an original pattern. Supporting the base are four small turned and ebonised feet. Because of their fragile nature, we are not willing to package and deliver domes using high street couriers or postal services. However, we are more than happy to dispatch these items throughout England, Wales, and Scotland using trusted private couriers, or of course, you may collect them from our shop in Dorking, Surrey. The measurements of the dome itself are - height 60cm x diameter 28 cm (the base has a diameter of 32.5 cm, and the overall height including the base is 65 cm)
